

TABLE OF CONTENTS

Section 1: Introduction and Overview	1
1.1 Introduction and Background.....	1
1.2 Central Avenue Corridor	4
1.3 New Starts and the Alternatives Analysis Process.....	4
1.4 Community and Public Involvement.....	6
Section 2: Purpose and Need.....	7
2.1 Existing Transportation System	7
2.2 Population and Employment.....	11
2.3 Land Use and Growth Policies.....	14
Section 3: Definition of Alternatives	18
3.1 Technology Alternatives	18
3.2 Alignment Alternatives	22
3.3 Typical Sections.....	25
3.4 Stations	25
3.5 Park-and-Ride Locations	26
Section 4: Evaluation of Alternatives	28
4.1 Preliminary Evaluation.....	28
4.2 Detailed Evaluation	31
Section 5: RTP Financial Capacity.....	46
Section 6: Findings and Recommendations	47
6.1 Technology and Alignment Alternatives Evaluation Findings.....	47
6.2 Recommendations	49
6.3 Next Steps	50

APPENDICES

Appendix A: Resolution R-02-66	
Appendix B: Survey Findings	
Appendix C: Selected Density Plots Densities	
Appendix D-1: Operating Plan	
Appendix D-2: Capital Costs	
Appendix E: Socioeconomic Data by Alternative	
Appendix F: Redevelopable (Vacant and Underdeveloped) Parcels	

LIST OF TABLES

Table 1: Study Corridors Overall Intersection Level of Service Summary	9
Table 2: Average Daily Ridership for Select Transit Routes.....	11
Table 3: 2000 Year Population and Employment Characteristics	12
Table 4: Population and Employment Growth 2000 to 2025	12
Table 5: Population and Employment of Major Activity Centers	14
Table 6: Assumed Operating Characteristics for Rapid Transit Alternatives	21
Table 7: Tercile Ratings of Alternatives Based on Socioeconomic Criteria.....	30
Table 8: Approximate Annual Operating Costs	32
Table 9: Approximate Capital Costs.....	33
Table 10: Comparison of Daily Ridership and Person-Miles-of-Travel	36
Table 11: Comparison of Population and Employment Characteristics	37
Table 12: Comparison of Daily Vehicle Hours of Travel.....	38

Table 13: Operating Efficiency.....	39
Table 14: Comparison of Cost Effectiveness.....	39
Table 15: Comparison of System-wide VMT and VHT	40
Table 16: Transit-Dependent and Special Status Populations.....	41
Table 17: Comparison of Transit-Oriented Development Opportunities	44

LIST OF FIGURES

Figure 1: Comprehensive High Capacity Transportation System From MRG Connections....	2
Figure 2: High Capacity Transit System From MRG Connections.....	3
Figure 3: Central Avenue Corridor	5
Figure 4: Year 2000 Intersection LOS.....	8
Figure 5: Year 2025 Intersection LOS.....	10
Figure 6: Locations of Special Status Populations.....	13
Figure 7: Activity Centers Within Central Avenue Corridor	16
Figure 8: Alignment Alternatives	23
Figure 9: Guideway and Station Typical Sections.....	27
Figure 10: Parks and Historic Properties	43
Figure 11: Potentially Impaired Properties	43
